RSIC Security Strap for Walls and Ceilings

- 2 RSIC-Security Straps per RSIC-1 Connection
- Increase static and dynamic load safety margin over two thousand (2,000) percent

Fasteners:

1. Snap the RSIC-Security strap to the RSIC-1 clip
2. Secure the RSIC-1 Security strap to the drywall furring channel on the opposite side from the hooked end using standard point framing screws 7/16" or 1/2" in length. (fasteners supplied by others)
3. Repeat steps 1 and 2 from the bottom of the RSIC-1 clip.
