TMS SILENT CLIPS - A96R

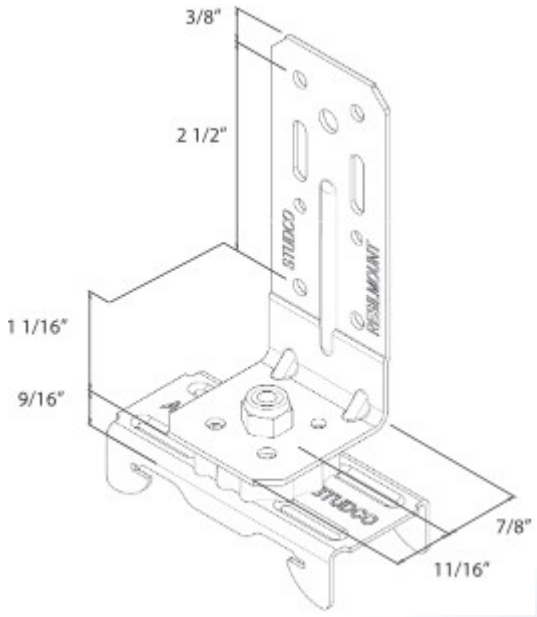
PRODUCT SPECS

APPLICATION:

TMS Silent Clip A96R is an engineered, acoustic resilient mounting bracket for reducing airborne vibration and structure-borne vibration in ceiling applications.

FEATURES:

- Unique, patented sound cell design to break up and absorb airborne sound.
- Engineered thermoplastic rubber outperforms standard rubber because of its sound absorbing characteristics.
- A96R gives ceiling height flexibility.
- Allows for mechanicals between the ceiling and ceiling joists.
- Can be used with standard drywall furring channel.
- Strong 'column' design provides minimal contact area with substrate whilst maintaining maximum structural integrity.
- Provided with several 3/16” slotted holes in bracket surface, suitable for direct fastening applications.



DYNAMIC CHARACTERISTICS:

The TMS Silent Clip A96R right angle bracket can be mounted in several different orientations for a variety of acoustic-sensitive installations. All Resilmount products are precision manufactured by Studco Building Systems for complete control over the quality of each individual piece, in order to meet or exceed the architectural specifications required of each resilient mount. The patented Reilmount rubber insert has been independently tested and approved for use in the USA.
