

# TMS SILENT CLIPS - A48R

## PRODUCT SPECS

### **Application:**

TMS Silent Clips – A48R is an engineered, acoustic resilient mounting bracket for reducing airborne vibration and structure-borne vibration in internal wall and ceiling applications.

### **Features:**

- Unique, patented sound cell design to break up and absorb airborne sound.
- Engineered thermoplastic rubber outperforms standard rubber because of its sound absorbing characteristics.
- A48R is perfect for decoupling wall systems.
- A48R can be used to decouple almost anything from garage door motors to lockers.
- Resilmount is the most cost effective way to isolate airborne noise.
- Strong 'column' design provides minimal contact area with substrate whilst maintaining maximum structural integrity.
- Provided with several 3/16" slotted holes in bracket surface, suitable for direct fastening applications.
- 1/4" hole for most common fittings like 3/16" suspension rod.

### **Dynamic Characteristics:**

The A48R right angle bracket can be mounted in several different orientations for a variety of acoustic-sensitive installations. All TMS Sound Clip products are precision manufactured for complete control over the quality of each individual mount, in order to meet or exceed the architectural specifications required of each resilient mount. The patented resilient rubber insert has been independently tested and approved for use in the USA.

## PRODUCT SPECS

### INSTALLATION NOTES:

- A48R to be fastened to structure with a minimum #8 screw or masonry sleeve anchors. (See fasteners manufacturers specifications).
- When using in ceiling applications, always check load ratings with Resilmount's engineers prior to installation.
- Do not over tighten wall fasteners.
- Must have a A-300 washer in fire rated assemblies.

### SPECIFICATIONS:

Code	Bracket Height	Weight Capacity (lbs)
A48R	4 3/8"	48

# Lead time and minimum quantities may apply.
